

EMPLOYEE ONBOARDING CHECKLIST

The onboarding checklist is designed to guide the onboarding journey from pre-employment preparations through the initial months, fostering a smooth integration of new employees into the organisation. It can be customised based on your organisation's specific needs, policies, and processes.

Employee well-being should be central to any onboarding process. Wellbeing is visited at regular intervals in the employee onboarding checklist; however, it should remain a priority at all times through the onboarding journey. Establishing open communication, integration to teams and culture, scheduling feedback sessions, and encouraging participation in training and development opportunities are crucial steps. By prioritising the holistic health and happiness of new hires from the start, organisations lay the foundation for a supportive and fulfilling employee experience.
