

## Client Information, Consent and Referral Form (Logan)

### What is a Service Integration Group?

A Service Integration Group (Group) is a team of different agencies (community and government) that work together in your area. There are many Groups across Queensland, but only the Group in your region (Your Group) will help you. Members of Your Group can include Housing Service Centres, Community Housing Providers, and other agencies. Q Shelter helps to organise and support each Group, including Your Group.

### How Can the Group Help You?

Your Group helps people who are homeless, at risk of homelessness, or struggling to keep their homes. They meet every few weeks to discuss how to support people and families in need.

### Who Is in Your Group?

The Group members can include services that help with:

- Housing and rental support
- Health needs, including mental health and disability services
- Alcohol and drug treatment
- Aged care
- Cultural needs
- Family support and welfare
- Legal help
- Community participation
- Employment and education

### What Does Your Group Value?

Your Group cares about you as an individual. They will:

- Listen to your needs and involve you in decisions (client-informed) through the Referring or Lead Worker who will represent this at the meetings.
- Create a safe environment for everyone, including First Nations peoples, people from different cultural backgrounds, people who identify as LGBTQIA+, people with disability and others from diverse communities.

### Sharing Your Information

To help you, members of Your Group need to share information about you with each other. Occasionally we need to share with agencies who are not a part of the Group. If this was needed, we would seek your consent through your referring or lead worker.

#### What Information Will Be Shared?

- Your goals, background, and current situation.
- Your personal details like name, contact info, income, and preferred services.
- Your health information, such as conditions and treatments.
- Family information, like your next of kin or close support persons.
- Any other information that can help assess your housing and support needs (e.g., financial difficulties, legal issues, family violence, etc.).

### Why Is This Information Shared and How Is The Information Stored?

This information will be discussed during meetings to plan and report on how to best help you. The information shared with Your Group is recorded by the Service Integration Facilitator (SIF). The SIF securely stores all information in a password-protected Client Management System overseen by the Department of Housing and Public Works. This ensures your information is safeguarded in line with privacy laws.

**Family Support Collective**

The Family Support Collective (FSC) is not a service itself but is a partnership between Government and Non-Government services working with families. The FSC provides an avenue where families and community service providers can work collaboratively to determine the most appropriate strategies to assist families who have experienced significant barriers. Any families living in Logan with children under 18 who are experiencing issues or barriers that require a more collaborative approach to service provision from multiple providers are eligible for referral to the FSC. Referrals will not be accepted without the consent of the family; however, de-identified cases can be discussed.

The quality data is used to understand how the service system is responding and for data driven system improvements to end homelessness

***The Australian Homelessness Vulnerability Triage Tool (AHVTT)***

The AHVTT is a short, voluntary survey that helps Logan Zero, and partnered organisations, better understand the situation of, and work alongside, individuals and families who are experiencing homelessness. The tool, based on people’s disclosed information, assists in prioritising the most vulnerable and to rapidly resolve crises. The questions cover various topics, which can be skipped by the person undertaking the survey if they wish to do so. Topic areas include:
